Intuition and Dreamwork
Dr. Emery will discuss the intuitive mind's two significant roles in dream work, the first role which is premonitory or precognitive is embodied in Edgar Cayce's statement, "Nothing of significance happens unless it is first previewed in a dream." The second role is to use intuition to unravel the mysteries embedded in your dream images. You can discover how to use intuition to retrieve, respect and listen to the insights embedded in your dreams. Marcia Emery, Ph.D. psychologist, intuitive consultant, college lecturer, and media personality has pioneered applied intuition practices for decades. She is the author of PowerMunch! The Intuitive Healer, and Dr. Marcia Emery's Intuition Workbook and was one of the dream Experts on the Dream Deciders miniseries which aired on the Discovery Health Channel. Marcia is a member of the Board of the International Association for the Study of Dreams. Visit her website at
